

# St. Heights School

## Dare to Soar

### Our School

St Heights School is located in the City of St. Albert boundary. Sturgeon Heights has a reputation of strong academic programs and building students of character with a foundation for success. Our teachers engage young students with the innovative Reggio Emilia approach to learning. We provide a strong complementary program in fine arts and career and technology courses with an active extracurricular program. The school has an Innovation Lab dedicated to Science, Technology, Engineering, Arts and Mathematics (STEAM) learning.

Sturgeon Heights School offers a safe, caring environment in partnership with community, parents, students and staff. We develop cross-grade activities designed to build relationships and support the development of all students. Our school includes a foods facility, an open library and Learning Commons, a dedicated music room and a Bring Your Own Device (BYOD) program for grades 6 and up. Childcare is also available at the school.
